INDUSTRIAL SOLUTIONS FOR BETTER ERGONOMICS

Design the job to fit the worker - increasing productivity and worker health through engineering.

Ergonomics is more than a buzzword today - it is a movement. Nationally, our demographics confirm we are aging and in deteriorating physical shape. This impacts the workplace, and good employers must think of their businesses in terms of ergonomics. EASE is the group within MHI focused solely on making work easier for people by improving the work environment.

INDUSTRIES SERVED: Virtually all - where there is a physical interface between a task and a worker.
