

“Burn table loading system improves productivity”

**Features and Benefits**

Only requires one worker

Variable Speed Controls

**Industry Group:** Monorail Manufacturers Association, Inc. (MMA)

*“We wanted all the equipment from one reliable source and Acco was a great choice”.*

This new factory needed new cranes and monorails. Acco designed all the material handling needs for this customer.

We used Louden 585 Cranes equipped with Wright Work-Rated Hoists. All motions are controlled by Inverters for smooth operation. Additionally we supplied Nutting trailers to transport the plate safely to the burn table.

**Acco Material Handling Solutions**

76 Acco Drive

York, PA 17402
