

PRODECANT IS A BREAKTHROUGH AUTOMATED DECANTING SYSTEM

READY FOR A LABOR-SAVING SOLUTION FOR PICKING?

PRODecant is an automated decanting robotic cell that safely opens cases and empties product into totes.

PRODecant is customized to your needs and allows a better use of labor in your facility.

Boost speed, accuracy and safety with PRODecant.

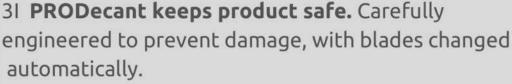

WHY PRODECANT?

11 **PRODecant reduces reliance on labor.** Move scarce workers from the task of opening boxes to other areas of your facility.

21 **PRODecant is configurable.** From 6'x6' to 36'x36' footprint, with case weights up to 45lbs, PRODecant handles multiple cases per tote.

41 **PRODecant is fast**. Cycle time for decanting is 4-7 cases per minute and can operate 24/7.

51 **PRODecant is connected.** Measure your performance by integrating PRODecant with your existing systems.

PRODECANT BOOSTS EFFICIENCY & OPTIMIZES AVAILABLE LABOR

PRODecant is a cutting edge way to automate a repetitive, labor-intensive task.
