Tablet Solutions for the Mobile Workforce

What makes The Joy Factory's tablet accessory solution different?

The Joy Factory, Inc., headquartered in Irvine, Calif., is a global manufacturer of leading tablet mounting, cases, enclosures, kiosks and mobility accessory products that have been enhancing the human interaction with digital devices for over half a decade. The Joy Factory has quickly become an essential rugged solution provider for a wide variety of industries such as manufacturing, hospitality, education, transportation, healthcare, government, exhibition and retail.

The passion for innovation and quality gave birth to the P.S.P. (Protect, Secure & Position) philosophy, a differentiator and the proof is in the company's product patented and patent-pending brands MagConnect™, aXtion®, Unite™, and Elevate™. With these criteria fundamentals, The Joy Factory was able to allow users to stay active, engaged and feel secure with their device on a daily basis.

Our portfolio of business-class solutions includes:

- Carbon Fiber Tablet Mounts
- Rugged Waterproof Enclosures
- Commercial-Grade Tablet Kiosk Solutions
- Accessories that secure and expand the power of a mounted tablet

How to...

build your solution

aXtion® Rugged Tablet Cases

aXtion means bridging the active life you love and the mobile tech you need. aXtion means experiencing the finest in rugged, water-resistant, waterproof protective enclosures, evolved for the 21st century. aXtion means taking your tablet anywhere you go with maximum freedom, ultimate protection, and increased productivity. Select between the different tablet cases and available accessories below.

Case Solutions

To begin building a mounting solution that best fits your needs and environment it is best to select a case that will protect the device from incidentals. Our aXtion line of case options are designed to protect businesses' tablet investment by protecting the device from accidental drops and in some cases water damage. The aXtion Edge Line is designed to keep the device safe from drops and features a thin profile. For a case that is a bit more robust, the aXtion Bold Line offers drop protection plus water-resistance. This line also offers other built-in features. Some environments require water-proof protection. There are two lines that meet this criteria. The aXtion Slim Line of cases offer waterproof protection while maintaining a slim profile. The other waterproof option is the aXtion Pro Line of cases which is designed to provide that level of protection plus more robust drop-proof protection along with some added features and technologies.

MagConnect™ Tablet Mounting Solutions

The MagConnect mounting system is built to help bridge the gap between a tablet and its environment. Each mount is designed with a unique mount base to work in a variety of permanently fixed or temporary settings for both flat and round surfaces and across various industries. Each mount features a patented magnetic connector that makes attaching and removing the tablet rapid.

There are two mount lines within the MagConnect system. The first are crafted of high-quality carbon fiber arms. This advanced material is surprisingly lightweight yet incredibly strong. The powerful combination of carbon fiber with carefully designed joints produces mounts that are both easy to maneuver and sturdy to use. The second is our HD series which feature robust durability and boast vibration and shock resistance with MIL-STD-810G 514.7 certification. They've been tested to withstand use in industrial environments and are sure to keep the device in place.

Unite™ Universal Tablet Mounting Solution

The Unite Universal mounts are designed with patent pending technology and precise engineering, making positioning your tablet quick and easy while ensuring the screen stays in the desired location. Flexible and ergonomic, this solution provides strong support while offering a sleek, minimalistic design that complements the look of the technology. These user-friendly solutions are easy to install and maintain, meaning less time setting up and more time on the tablet. With options designed to cater to different configuration and portability needs, these simple solutions make it easy to incorporate tablets into workplaces, digital display areas and design applications.

AgileGo™ Tablet Rolling Cart Solutions

Working in healthcare environments brings complexities to consider when selecting equipment that is utilized. The AgileGo was designed with the capability to address mobility needs and ease of use with easy to clean and sanitize surfaces. Our proprietary cases and enclosures provide top notched quality designed to protect the devices they house. The flexibility of the gooseneck arm allows the device to be positioned exactly where the user needs it while the adjustable handle and wheels aid in the easy transport of the cart from location to location.

Image	Product Description	Details
	<p>AgileGo™ Magnet Cart</p> <p>Cart with MagConnect gooseneck quick connect arm</p> <p>Features</p> <ul style="list-style-type: none"> • Compatible with all aXtion rugged cases with MagConnect compatibility; some cases feature antimicrobial capabilities • Features include: gooseneck flexible arm, adjustable handle, five smooth gliding locking wheels, and MagConnect connection • Quick magnetic connection with MagConnect when attaching and detaching the tablet to the cart • Flexible gooseneck arm allows the tablet to be adjusted to meet each user's unique viewing angle • Compliance with ADA, UL/IEC 60601-1 Physical Requirements, RoHS, and REAC • Expand usage with these companion accessories: work surface, basket, and power hub holder 	<p>Tech Specs</p> <p>Material: Mixed materials; main material aluminum alloy, carbon steel and silicone</p> <p>Weight: 12.6 lbs</p> <p>Height: 58.3"</p> <p>Width: 25.2"</p> <p>Cart base diameter: 24"</p> <p>Joints: 1" spherical joint at tablet connection</p> <p>Connection: MagConnect</p> <p>Compatibility: aXtion Cases featuring MagConnect</p> <p>Model Number: RMU101</p> <p>MSRP: \$599.99</p>

Elevate™ II Tablet Kiosk Solutions

The Elevate II series of tablet kiosks and stands come in white or black as the standard color, but can be customized by request. These kiosks feature the ability to be compatible with a wide variety of tablets. Each kiosk is secure and features cable management. Modules are available to help you get the most out of your kiosk. Select from our standard models below or contact our sales team to inquire about our customization options.

Available modules
