VERTICAL BAGGER SERIES

R&E
ROBOTICS & END OF LINE

Bagging solution for E-Commerce businesses

The E-Commerce industry is evolving faster than ever. Rennco offers an advantage by using our proven vertical bagging solution.

Your E-Commerce items can be easily loaded into the web of centerfold material. Each package is "right sized" based on the product being bagged, thus advancing the correct length to minimize material used. A shipping label is automatically attached to the package.

Individual or multiple items can be loaded based on your particular application.

FEATURES AND BENEFITS

- Right size the package around products
- Easy to load for fulfillment operations
- Cost savings using centerfolded roll stock material over pre-made bags
- Minimize material used, dimensional weight freight costs are reduced
- Easily integrates with ID Technology printer options
- Customers have reached up to 30 packages per minute
- Custom infeed options available
