WE FEAR NO PACKAGING CHALLENGE

Centralized Controls

All electrical components can be placed in one single enclosure; which allows faster communication and simplified programming.

A single control panel allows the user to change settings and perform maintenance of both systems simultaneously.

AC variable frequency drives and motors for safe, reliable performance and minimal maintenance

20" NO-THREAD® powered pre-stretch carriage for quick, easy, ergonomic and safe film loading / 50% to 300% pre-stretch for optimal film use and reduced costs / with our revolutionary spring loaded carriage gate, our carriages are "maintenance free"

The German designed GT41 N strapping head, that has proven its efficiency for many years, guarantees a solid vibration seal joint without any emissions of vapors

Enclosed dual chain carriage lifts for increased safety / the dual chain system improves machine security and ensures stable lifting thus eliminating vibrations

All steel structure, no plastic... All Wulftec structures are built with heavy-duty steel for rugged performance, in even the harshest work environments

The Wulftec Advantage

- Allen Bradley PLC for more flexibility
- AC variable frequency drives and motors
- Heavy-duty steel construction
- Non-proprietary parts
- GT41 N strapping head capable of handling polypropylene and polyester straps
- Quick disconnects throughout for ease of installation and maintenance
- Superior warranties
