# AUTOSLIP

Our customers have doubled their packing station throughput using Autoslip's one step fold, insert and application system.

The Autoslip combines your shipping label/packing slip and return label in one transaction, with up to 9 A4 or Letter size pages in 3 page sets. The documents are printed, folded, and inserted into an adhesive pouch which is then applied to the top or side of a closed container.

At rates of up to 13 per minute, the Autoslip dramatically increases throughput compared to a manual process.

Save on labor and reduce errors by automating document printing with the Autoslip.

WHY WORK WITH PSI TO AUTOMATE YOUR PACK STATION?

We help our Clients and Partners turn their pack stations into profit centers by automating manual operations, providing Value Added Services, and commercializing the pack station.

- We have an in-depth understanding of pack station operations and our team will work with you to choose which of our products is right for your needs and can custom design solutions, if necessary.
- We offer seamless integration of a scalable and flexible solution into your existing process or operation to improve efficiencies and reduce the amount of down time for installation.
- Our simple middleware applications are easy to use and require minimal training to be fully operational.
- And if you run into any issues, our service team is just a phone call or email away.

STANDARD MACHINE SPECIFICATIONS

PSI's Autoslip is designed to reduce the number of manual touches during the document handling process at the pack station. The Autoslip can print documents on demand, fold, and insert them into an adhesive pouch. The pouch can then be applied to the top or side of a closed container, or the pouch can retain the backing and be stacked for manual application onto larger items.

Rates of up to 13 pouches* per minute.
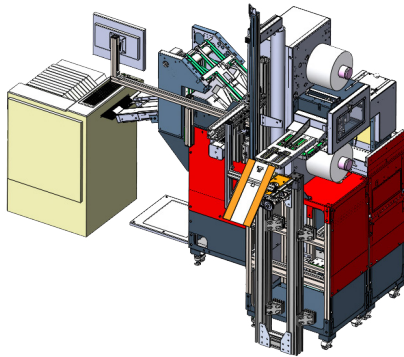

Paper Size:
- Letter
- A4

Paper Weight:
- Minimum: 80GSM/20lb
- Maximum: 90GSM/24lb

Additional options include:
- Top application
- Side application
- Semi-automatic configuration
- Document orientation (long- or short-edge leading)
- Safety covers and switch

*depending on factors such as: file size, color or monochrome printing, and/or number of pages.

If your project requirements fall outside of our standard specifications, please contact our team at info@psiengineering.com and talk to us about a custom design!

Autoslip – Top Apply

Autoslip – Side Apply

COMMON PSI AUTOSLIP APPLICATIONS

Autoslip - Top or Side Apply
- Pre-packaged products
- Closed containers sealed earlier in the packing process
- Combined packing slip & shipping label

Semi-Automated Autoslip
- Large furniture & appliances
- Pallets
- Virtually any product too large for a conveyor

PSI Engineering is the leader in the manufacturing, service and support of innovative pack station automation systems and order fulfillment automation solutions.
