

PRINT FEEDERS

PSI's Print Feeders are built to handle any print on demand & insertion of any personalized/customized document that needs to be inserted into a container along a conveyor line.

Our lineup of print feeders can print, accumulate, separate, fold, and insert personalized, color or monochrome documents at high speeds. The resulting increased packing station efficiency allows for faster order fulfillment and a higher throughput.

With rates of up to 20 per minute, the Print Feeder can dramatically increase throughput at your facility!

Save on labor & time and reduce errors by automating document insertion with the Print Feeder.

WHY WORK WITH PSI TO AUTOMATE YOUR PACK STATION?

We help our Clients and Partners turn their pack stations into profit centers by automating manual operations, providing Value Added Services, and commercializing the pack station.

- We have an in-depth understanding of pack station operations and our team will work with you to choose which of our products is right for your needs and can custom design solutions, if necessary.
- We offer seamless integration of a scalable and flexible solution into your existing process or operation to improve efficiencies and reduce the amount of down time for installation.
- Our simple middleware applications are easy to use and require minimal training to be fully operational.
- And if you run into any issues, our service team is just a phone call or email away.

STANDARD MACHINE SPECIFICATIONS

Our Print Feeders are designed to optimize the on demand document printing for each order in the fulfillment center. Reduce your labor dependency by automating the printing, folding, and insertion of personalized documents such as packing slips, contracts/agreements, and personalized thank you notes!

With options like single or dual fold and monochrome or color printing, one of our Print Feeder models is sure to fit your needs. Our standard Print Feeder models use Canon printers for the best in class quality printing and reliability.

Rates of up to 20 pages* per minute.

Paper Size:

- Letter
- A4

Paper Weight:

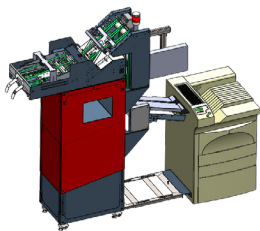

- Minimum: 80GSM/20lb
- Maximum: 90GSM/24lb

Additional options include:

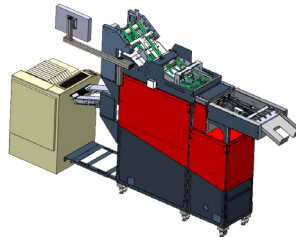

- No fold, single fold, or dual fold models
- Color printing
- 90° left or right facing exit transport
- Document orientation can be either short edge leading or long edge leading
- Safety covers and switch

*depending on factors such as: file size, color or monochrome printing, and/or if folding is needed.
