

INTRODUCING **ULTRA-LITE** **COMPOSITE MATERIAL**

The ULTRA-LITE composite material was developed to meet the customer demands for a sustainably lighter container that can withstand continuous industrial use. The MFG Tray ULTRA-LITE composite is 40% lighter than standard fiberglass while retaining our trusted strength and durability. **Lighter weight, legendary strength!**

- » 40% lighter than standard FRP products with trusted strength and durability
- » Lighter for more ergonomic handling and reduced shipping weight
- » Impervious to cutting oils, detergents, mild acids, and alkaline solutions
- » High continuous operating temperature range of -60° to 250° F (-51° to 121° C)
- » Available on a variety of MFG products

Reinforced composites bring a new level of performance to material handling. Our trays and containers will work harder, and smarter for you. **Trust MFG Tray for your tough jobs.**
