

WIRE DECKING is in our DNA

Our extensive range of solutions accommodates every application, offering flexibility in size, configuration, and weight-loading specifications. Our PalletShelf™ is simple to install, maintain, and accessorize for maximum efficiency in your material handling operation.

With 10 domestic facilities, we have the largest capacity of automated production facilities to meet your large-scale programs and the most challenging deadlines. We manufacture wire decking to your exact specifications and distribute from multiple locations.

With emphasis on quality, integrity, and safety in your workplace, you can rely on Nashville Wire to consistently deliver on your expectations. Our product specifications have evolved over decades to remove any risks in a dynamic environment, and we provide the best overall value for your money.

Why Choose Nashville Wire?

We are the industry leading producer of the highest quality wire decking and storage solutions used across a diverse range of warehouses and distribution centers nationally.

Thousands of fulfillment facilities across North America touch millions of products every day. With our help they optimize their operations, resulting in reduced costs to retailers and, in turn, consumers.

At our state-of-the art production facilities located across North America, we build the highest quality solutions that deliver improved labor efficiency, optimized space utilization, safety, and durability in every client program.
