Manufacturers of Material Handling and Storage Equipment

CUSTOM FABRICATION

**PERFORMANCE  
BY DESIGN**

## COLLAPSIBLE BINS

Custom designed and manufactured for a nationally known engineering and technology company, these Collapsible Bins provide for easy storage and improved return shipping density when not in use.

They are purpose designed to cradle delicate parts so that they can be shipped densely, without marring paint-ready finishes, and with no need for bubble wrap, tie downs, etc. Bins have dual half-dropdown gates and solid steel decks.

### If We Can Do This For Them, What Might We Do For You?

Rely on EGA precision engineering and manufacturing expertise to design and build custom racks like these, and other equipment that will meet the specific people-access, materials-handling, or storage needs of your industry and its processes—no matter how simple or complex your requirements.
