CUSTOM STORAGE LOCKERS

Designed and manufactured for U.S. armed forces, these Custom Storage Lockers meet special requirements for soldiers at a major military base. Significantly larger than anything available "off the shelf" from conventional suppliers, they're also specially ventilated with expanded metal grids and hinged louvered doors to accommodate damp or wet clothing, backpacks, and other military paraphernalia.

If We Can Do This For Them, What Might We Do For You?

Rely on EGA precision engineering and manufacturing expertise to design and build custom racks like these, and other equipment that will meet the specific people-access, materials-handling, or storage needs of your industry and its processes—no matter how simple or complex your requirements.

LEARN MORE

Special features of these EGA Custom Storage Lockers also include:

- ▶ Integral locking systems make them easily secured-because military gear includes personal property as well as guns and ammunition
- ▶ A unique framework system allows for attractive, continuous, and virtually seamless rows of lockers for the length of your designated space
- ▶ Two-tier example (pictured) accommodates two personnel. Three-tier lockers can be custom designed to accommodate your particular personnel requirements

EGA Custom Storage Lockers are also:

- ▶ Offered in a variety of finishes including painted enamel
- ▶ Available with stainless steel construction
- ▶ Available with hot-dipped galvanized steel to thwart rust in coastal or other damp environments
