FLAT MEDIA TRAY CARTS

EGA advanced design expertise and manufacturing capabilities were tapped by a well-known national provider of material handling systems when they required a line of custom tray carts with 25 levels for storing and transporting flat media.

That was because in addition to sizing and durability considerations, the tray cart shelving must be precisely aligned from unit-to-unit to accommodate ASRS robotics, a design element that is additionally complicated by the need for the 25 levels to be adjustable.

If We Can Do This For Them, What Might We Do For You?

Rely on EGA precision engineering and manufacturing expertise to design and build custom racks like these, and other equipment that will meet the specific people-access, materials-handling, or storage needs of your industry and its processes—no matter how simple or complex your requirements.

[LEARN MORE](#)

EGA engineers designed a Flat Media Tray Cart that can be used in a wide range of ASRS environments where flat media need to be accommodated. For example:

- Automotive
- Food
- Manufacturing
- Metalworking
- Shipping
- Military/government

These EGA Flat Media Tray Carts additionally feature:

- Boltless construction
- 5-inch casters for effortless mobility

EGA Flat Media Tray Carts are available with stainless steel construction or offered in a variety of finishes, including:

- Painted enamel
- Powder coat
- Hot-dipped galvanized
- And more

Typical industrial applications:

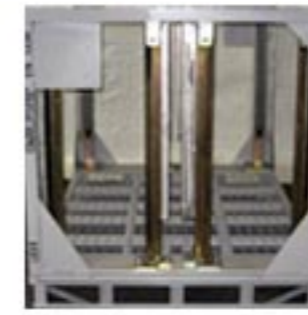

Automotive, food, manufactured goods, metalworking, military/government, shipping

Carousel Racks

Shipping & Receiving Packaging Benches

Indexing Tower Racks

Custom Operations Platforms

Returnable Equipment Racks (Non-Collapsing)

Galvanized Industrial Stairways & Landings

Returnable Equipment Racks
