Label Applicators

Alpha Series
Economical & Reliable

The Alpha Compact Wipe-On Label Applicator

If you are looking for a reliable, economical labeling system that is easy to set up and simple to maintain, then check out the Alpha Compact.

The Alpha Compact label applicator automatically unwinds the label supply roll and peels the labels from their line. Then it wipes the label onto the products, cartons or other packages as they travel past the system on a conveyor line. This system applies labels up to 4.7" wide and 11.8" long at speeds up to 164 feet per minute to a tolerance of ±0.03".

This versatile unit can be oriented to apply labels to the sides, tops or bottoms of packages. To accommodate various production environments, the Alpha Compact can be specified for right- or left-hand applications.

The Alpha HSM HIgh-Speed Modular Label Applicator

Weber's Alpha HSM features high-speed labeling in a modular design for faster labeling speeds and more flexibility in application. The modules consist of a drive module, a label detection module, a dispensing module, an unwinder module, a rewinder module and an adapter module. These can be assembled according to a customers specifications using our configurator to create just the right label applicator for their product line.

Every packaging line is different, so Weber engineered the modular Alpha HSM so that it can be ordered in ten different versions to fit just about any labeling application. Available in right- or left-hand versions, the Alpha HSM has 5.3" (135mm), 7.8" (200mm), 9.8" (250mm) and 12.6" (320mm) label width versions. The HSM can keep up with line speeds up to 328 feet/minute (100 meters).

With a labeling accuracy of ±0.01", the Alpha HSM can handle labels as small as 0.39" x 0.39" (10mm x 10mm) and up to 12.5" x 78.7" (320mm x 2000mm) (W x L). Depending on the label width configuration, the HSM can use label rolls up to 19" in diameter on 3" diameter cores.

Pack Leader USA Label Applicators
Easy-To-Use

The Pack Leader USA ELF-20 Wipe-On Label Applicator

The ELF-20 is aportable label applicator for top label applications that is efficient and mobile - perfect for small companies doing small production runs. The ELF-20 can be moved easily, so you can set up exactly where you'd like. It can be positioned on a tabletop or bench, or moved in-line for automatic or semi-automatic applications — a convenience not found with heavier, more elaborate labeling machines.

With advanced sensors, the ELF-20 delivers optimal efficiency. Hand wheels provide simple adjustments, enable quick set-up and easy changeover. When used with the optional feeder attachment, the ELF-20 works well for labeling flat unfilled pouches, flat boxes, cards stock.

The ELF-20 is easy to work on and to adjust, putting everything you need at your fingertips with the removal of just a few screws.

All Pack Leader USA labelers are made of 304 stainless steel and anodized aluminum. This extremely durable metal is specially treated to guard against rusting and other effects from harsher environments.

Pack Leader USA Label Applicators
Label Any Product Type

The Pack Leader USA ELF-50 Wrap-Around Label Applicator

The ELF-50 is a portable wrap-around label applicator with the efficiency and mobility you need for your small production runs.

This labeling system can be moved easily, so you can set up exactly where you'd like. It can be positioned on a tabletop or bench, or moved in-line for automatic or semi-automatic applications — a convenience not found with heavier, more elaborate labeling machines.

The ELF-50's standard one-button teach product and label sensors can be effortlessly adjusted for various labeling applications. And, with the manual position setting, your labels are placed accurately on the product, each and every time.

The Pack Leader USA PL-501 Wrap-Around Label Applicator

The PL-501 is designed to apply pressure-sensitive labels to round containers. And, with just a tap of its one-touch screen, you can easily adjust the settings to apply labels to one side of flat-surfaced containers. The machine's speed adjusts according to your container's surface.

Machine adjustments and changeovers are quick and simple, thanks to the PL-501's easy-to-operate features. The built-in operating instructions, memory preset and troubleshooting guide offered on the operator interface make it easy to use the PL-501. Hand wheels provide for simple adjustments, enable quick set-up and easy changeover.

The PL-501 is made of 304 stainless steel and anodized aluminum and carefully treated to guard against the effects of harsher environments. This durability translates into a solid choice for labeling machine longevity. In strict compliance with Good Manufacturing Practices (GMP) standards, the PL-501 is dependable, reliable and easy to maintain.
.

The Pack Leader USA PL-521 Horizontal Wrap-Around Label Applicator

The PL-521 has been specifically designed to accommodate horizontal labeling of slim, non-freestanding cylindrical containers such as pens, test tubes, syringes and lipsticks. An angled roller conveyor ensures accurate labeling by securing the product on its side as it moves through the label head.

In strict compliance with Good Manufacturing Practices (GMP) standards, the PL-521 is made of 304 stainless steel and anodized aluminum, and carefully treated to guard against the effects of harsher environments. This durability translates into a solid choice for labeling machine longevity.

The built-in instructions, memory preset and troubleshooting guide offered on the operator interface make it easy to use the PL-521. Hand wheels provide for simple adjustments, enable quick set-up and easy changeover

The Pack Leader PRO-625 Wrap-Around Label Applicator

The PRO-625 accommodates a wide range of labeling needs. Applying labels to the front and back of a container is built into the two-side apply design. You can also easily configure for a one-side apply or use the optional wrap-station for round containers.

The PRO-625 boasts a modular design that allows you to upgrade its capabilities as your needs evolve. Whether you have a custom product application or your product changes, it's simple to upgrade the machine to accommodate your new requirements.

With the PRO-625, labeling for a diverse range of containers is fast and easy — regardless of size or shape. The standard one-button teach product and label sensors make it simple to adjust for various labeling applications. And, with the manual position setting, your labels are placed accurately on the product, each and every time.

Single Source Supplier
The Right Materials Make a Big Difference

It's important to find the best labels for your packaging line. Not all labels are reliable when it comes to dispensing and adhesion. A good deal on labels doesn't pay off if they don't work well in your system. We provide the best labels, tags, RFID smart labels and printer ribbons that ensure compatibility with all of our labeling systems.

Weber manufactures a broad selection of pressure-sensitive custom, variable-imprint labels and tags, including ones for challenging applications like cold-storage labels and wet environments. And we also make a wide array of stock labels. With over 100 different label facestock and adhesive combinations available to us, our media experts can help determine the label best suited to a specific application.

Weber also is the source for eye-catching prime labels. Your label is your brand identifier that reaches out from the store shelf to your customers. Make sure it looks great and works correctly for your application.

Using water-based, UV flexographic, or rotary screen printing methods — in addition to the newest digital technology — we manufacture reliable high-quality labels. Weber offers a huge selection of materials, including paper, film and vinyl, plus specialty materials for foil accents, the no-label look, resealable constructions, and much more.

Also available are system-compatible thermal-transfer printer ribbons for label printers, printer-applicators, and RFID printer-encoders. We have the right ribbon, whether economical or long-lasting resin, to match your requirements.

Service & Support

When you purchase a labeling system from Weber, you have a labeling partner who will provide you with continued support.

And that support starts right from the beginning with our direct account managers. As true labeling experts, they will examine your labeling problem and find the most cost-efficient method for solving it. Our account managers stand by you through installation and training as well.

After your system is operational, our nationwide service organization has the expertise to keep it operating at peak efficiency. If a problem should arise, we promise prompt service to get you up and running again.

For additional hardware or software support, or questions about your labeling application, our product support specialists are just a phone call away. Additionally, our customer service representatives are equipped with the latest on-line order-entry systems to expedite your requests.

Customer satisfaction is Weber's number-one priority, which is reflected by our Corporate Mission Statement:

Our Success comes from helping our customers grow. Our Commitment is to bring new technologies to market that improve packaging automation, product identification and brand recognition. Our Team is agile, creative, responsive and conscientious toward or customers, our community and our environment.
