# VERSA GUARD™ Panel System

STURDY SYSTEM

Frameless with 90° bends at the top and bottom of all panels, the rigidity of this system is unparalleled compared with other frameless systems.

UNSURPASSED ADJUSTABILITY

Panels can easily be adapted before delivery or on-site, and it is easy to make cut-outs without the need for welding.
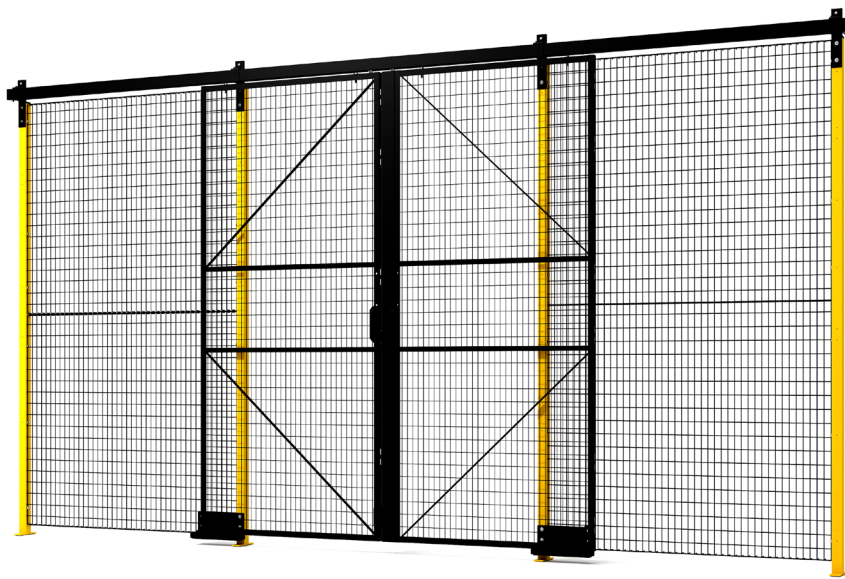

QUICK & EASY ASSEMBLY

All mounting hardware and floor anchors are included and posts are predrilled for expedited assembly.

EASILY COMBINED WITH OUR SAF-T-FENCE® SYSTEM

Can be used where risk of impact is low and seamlessly blended to our Saf-T-Fence® system in higher-risk sections.

SPECIFICATIONS

Panels

Mesh:	8-gauge welded wire
Grid Opening:	1.25" × 2.5"
Frame:	Frameless

Posts

|	
Tube:	2" × 2" , 16-gauge
Foot Plate:	4" × 6" × 0.25"

General

Powder Coated finish
1 Year Warranty

WHY VERSA GUARD?

Versa Guard's frameless system allows on-site customization. With simple mounting clips, this frameless system is easily reconfigurable, flexible and installs 25% faster. The mesh pattern allows for full air circulation and visibility with no change to your lighting or heating systems required.

Versa's tight grid pattern allows installation 8" from the hazard instead of 33.5" required of 2" x 2" grids. The 25.5" difference in distance maximizes productive space without compromising strength and protection.
