

SPIRAL VEYOR[®] SVE-SERIES

For large items and parcels

- Compact footprint
- No belt transfers
- Continuous elevation
- One drive only per belt
- Up to 48" width

SPIRALVEYOR® SVE-SERIES

PPI

The SpiralVeyor® SVE-series are the extreme wide belt spiral conveyors in the AmbaFlex SpiralVeyor programme and specially designed to handle oversized products, parcels and bulk flow.

The SVE combines an up to 50% more compact design with a 30% wider belt than other spiral conveyors available in the market. There is no comparison. The wide belt is built up from multiple parallel tracks that form one conveyor belt. The multiple belt track arrangement ensures enhanced pull strength for high load applications.

Technical specifications:

- The belt width ranges from 28 up to 48".
- Two or three seamless parallel tracks running at the same angular speed functioning like one wide belt.
- Belt speed up to 200 fpm.
- Loads up to 67 lb/ft.
- The angle of incline up to 15 degrees.

In / out feed configurations:

Material configurations:

- S** Mild steel, coated.
- CR** High Corrosion resistant coated mild steel frame, stainless parts, special CR-chain.
- RS** Stainless steel frame and moving parts

Alternative machines:

- SpiralVeyor® SV. Similar but with one track only (up to 48")
- SpiralVeyor® SV X-configuration. Two or three tracks parallel but completely independent belts for multiple parallel product flows. Each can be controlled separately at their own speed and bi-directional as needed.

SpiralVeyor®	Effective belt width	Belt configuration	Footprint
SVe 700	28"	1 x 20", 1 x 8"	7'-5" square
SVe 800	32"	1 x 24", 1 x 8"	8'-1" square
SVe 800	32"	2 x 16"	8'-1" square
SVe 900	36"	3 x 12"	8'-5" square
SVe 1000	40"	1 x 12", 1 x 16", 1 x 12"	8'-9" square
SVe 1000	40"	2 x 20"	8'-9" square
SVe 1200	48"	3 x 16"	9'-5" square

Other belt configurations possible.
