

# HAWKER FLEX® SERIES

## POWER ON DEMAND.

The HAWKER FLEX® series of batteries include TPPL (Thin Plate Pure Lead) and Lithium Ion advanced motive power battery chemistries. These batteries offer exceptional flexibility and productivity to meet your changing motive power needs, without the maintenance!

Constructed with Thin Plate Pure Lead (TPPL) technology, HAWKER FLEX®, FLEXPAK™ and HAWKER FLEX® ELITE batteries are designed to meet and exceed your operation's demands and thrive with frequent recharging. We also feature the HAWKER FLEX® Li<sup>3</sup> modular lithium battery for the most demanding operations and delivering the ultimate in battery performance and motive power capability.

Plus, the HAWKER FLEX® series of batteries are paired with the HAWKER® modular high-frequency switch-mode chargers for conventional, opportunity and fast charge applications. Together with HAWKER FLEX® batteries, we deliver the most "efficient system" to power your lift trucks.

### HAWKER FLEX® Motive Power Benefits:

- Virtually maintenance-free
- Thrives with frequent charging, resulting in greater performance benefits
- More frequent charging delivers longer life
- Shorter recharge times
- Perfect for charging whenever not in use
- Ideal for multi-shift operations
- Increased reliability and dependability
- Maximize forklift performance
- Longer battery life
- Lowest Total Cost of Operating
- TPPL is 99% recyclable
