

Simplifying Pallet Transfer!

PALLETX[®]

Need to exchange pallets?

Want to eliminate:

- hand stacking costs and inefficiencies?
- damage from pushing product?
- products being inverted?
- costly injuries and breakage?

Want to be able to:

- use pallet jack or any style of forklift?
- exchange pallets in less than 90 seconds?
- use minimal floor space (< 60ft²)?
- benefit from a quantifiable payback?

With PalletX, now you can!

PALLETX[®]

How Does PalletX Simplify Pallet Transfers?
It's as easy as 1-2-3!

STEP 1: Capture the Load

Insert Load

Closing Front Clamp

Raise Pallet & Clamp Product

STEP 2: Remove Old Pallet

Verify Load is Captured

Lower Old Pallet

Pallet Removed While Load is Held Securely

STEP 3: Introduce New Pallet

Insert New Pallet

Raise Pallet Under Product

Pallet Contents Exchanged
