

# Maximum safety is within reach

## ↩ Alternating Tread Stairs

From NASA to Miller Brewing, industry leaders choose alternating tread stairs for improved ergonomics, increased safety, and efficient design. This innovative alternative to steep stairways and ladders provides safe access to tight spaces.

## ⇒ Steel Bolted Stairs

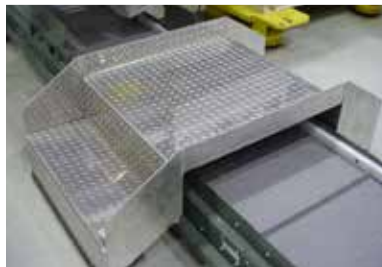

Our most cost-effective, OSHA-compliant stairs for equipment access, mezzanine access, crossovers, and other access needs. These stair systems use bolted connections for easy installation in tight spaces, fire hazard zones, or tricky retrofits.

## ⇓ Custom Systems

Lapeyre Stair's line of metal stairs, platforms, legs, and crossover systems can be integrated into a multitude of configurations.

MADE IN THE U.S.A.
