Glacier M330 Handheld

Glacier
M3 Series
Handheld Computers
are super slim, rugged and
feature rich!

Count on
Glacier Computer for quality,
innovation and value.

Glacier makes it easy to select the right device for the job because every M3 series handheld is completely configurable. The Glacier M330 is a multi-function, rugged handheld computer, running Windows CE 5.0, combining barcode scanning, camera, voice and touchscreen display.

Among other certifications, it has been drop tested to 5ft and IP64 rated. The M330 is designed with an innovative board-level ruggedization technique providing an ultra light and durable form factor. The M330 offers exceptional value by including a full-line of standard features that are usually considered expensive add-ons.

The M330 is part of the Glacier product line of rugged computing solutions and is designed, manufactured and tested for performance and dependability.
