BULK STORAGE: Provide the perfect solution for securing equipment and valuables.

GAS CYLINDER STORAGE: Protect your employees with the OSHA yellow Saf-T-Gas™ Cabinet.

HEAVY DUTY DOCK FOLDING GATES: Provide security while allowing air ventilation on dock doors, garages or any large entryway. Steel folding gates collapse and pivot for clearance of tracks and bollards.

PORTABLE HEAVY DUTY GATES: Section off areas with heavy duty folding gates that easily roll through any doorway. Add-on gates allow you to control access in any size opening.

SINGLE FOLDING GATE: Secure docks, receiving, garage & service doorways, hallways and entrances up to 12' wide without sacrificing visibility or air circulation.

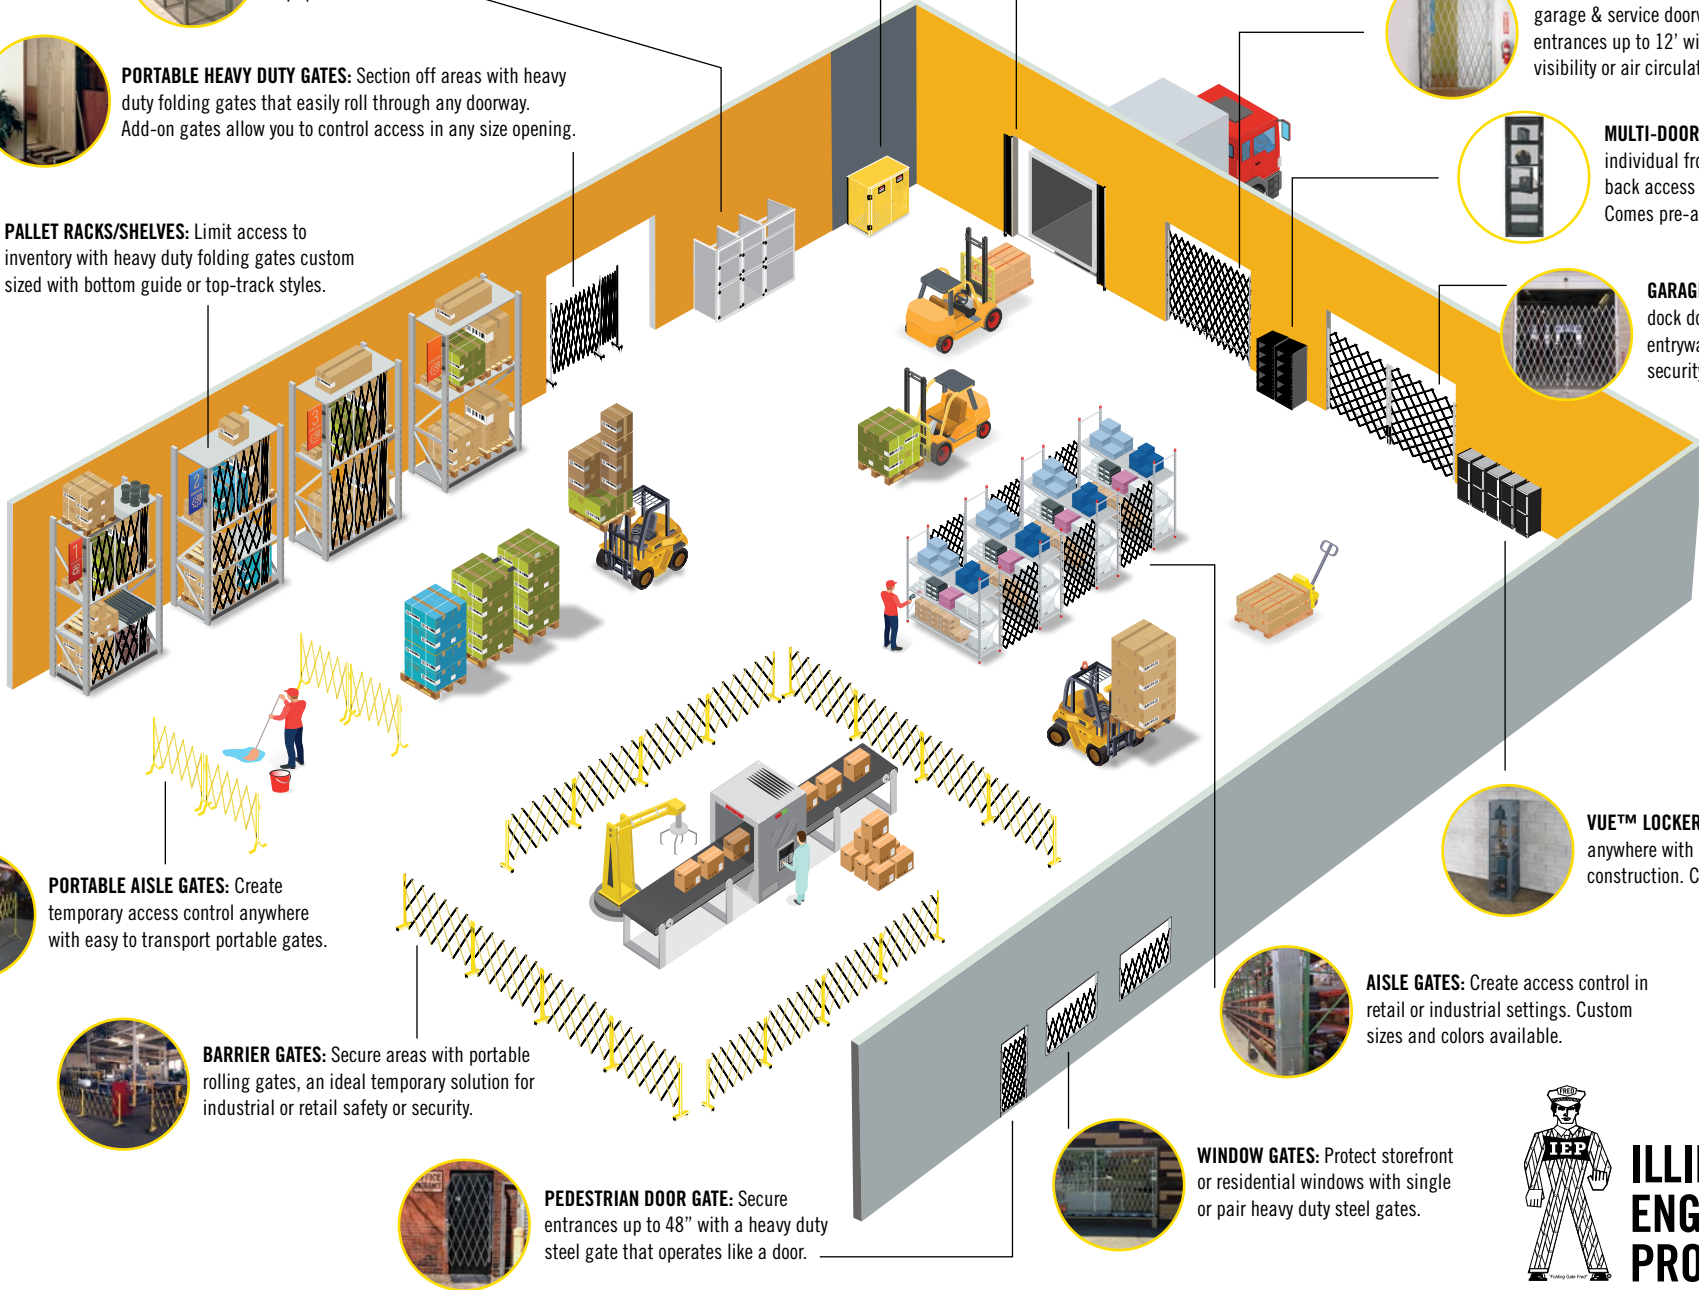

PALLET RACKS/SHELVES: Limit access to inventory with heavy duty folding gates custom sized with bottom guide or top-track styles.

MULTI-DOOR VUE™ LOCKERS: 5 individual front doors and a single back access door provide flexibility. Comes pre-assembled.

GARAGE DOOR SECURITY: For dock doors, garages, and wide entryways up to 12', enhance security with a heavy duty gate.

PORTABLE AISLE GATES: Create temporary access control anywhere with easy to transport portable gates.

BARRIER GATES: Secure areas with portable rolling gates, an ideal temporary solution for industrial or retail safety or security.

PEDESTRIAN DOOR GATE: Secure entrances up to 48" with a heavy duty steel gate that operates like a door.

VUE™ LOCKERS: Add secure storage anywhere with 5-tier steel mesh construction. Comes pre-assembled.

AISLE GATES: Create access control in retail or industrial settings. Custom sizes and colors available.

WINDOW GATES: Protect storefront or residential windows with single or pair heavy duty steel gates.
