Pallet Rack Decking

PressLock Pallet Rack Decking offers a high percentage open area and flush top design to allow storage items to slide on and off with ease.

Decking Features & Benefits:

- Manufactured from carbon steel
- High load capacity for strength & stability to avoid deck failure
- Uniform strength across entire deck
- Simple drop in installation
- Open mesh promotes air, light & water penetration
- Open mesh provides quick visible inventory checks
- Flush top design for smooth surface
- Galvanized finish available
- Variety of durable attractive powder coat colors available to compliment rack color

PressLock Pallet Rack Decking has maximum visibility and open air design for light, air and water for maximum sprinkler system performance.

Style A: Deck with angle collar on step beam

Style B: Deck on step beam without angle collar
