Cold Storage and Freezers

70A HIGH TRACTION POLYURETHANE

maxIMIZED PERFORMANCE

Stellana®

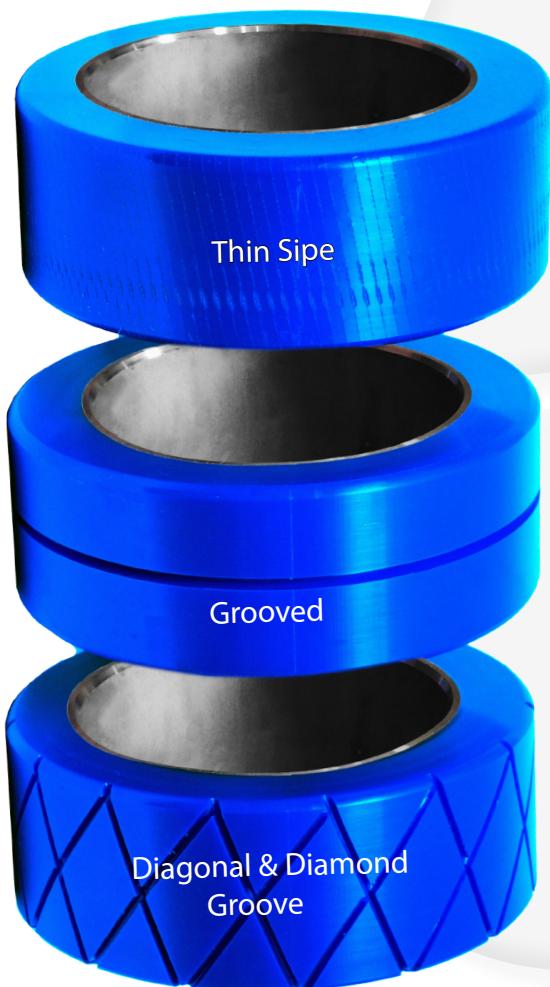

Tmax™

Traction Satisfaction!

Traction = Safety
Lasts Longer
More Debris Resistant

Stellana Tmax provides better traction in cold and damp environments than a standard polyurethane tire. Unlike rubber or harder compound polyurethane tires, Tmax will not chunk, tear, or dry out when used in blast freezers, cold storage areas, and damp locations. Tmax is developed with a 70A hardness. Suitable for indoor applications, Tmax will not load up with debris.

Tire Tread Patterns

Hardness (Shore A)	70A
Split/Tear (pli)	85
Tensile Strength (PSI)	3340
Elongation (%)	850
Compression Set (%)	32
Bashore Resilience (%)	53
DIN Abrasion (mm3)	16
