

Rotatruck™

Easier • Quicker • Safer

If you're not using a Rotatruck, you're working too hard and too slow!
Rotatruck is the easier, quicker, safer way to move just about anything.

Tricky loads

Our gas, crate and keg ranges are specifically designed to engage, secure, move and de-palletise tricky loads safer and faster.

Compact heavy loads

Reduce the need to bend when lifting heavy, compact loads using an optional folding nose at thigh height.

Multiple packages

Handles loads similar to convertible handtrucks, with greater speed and terrain capability.

*When compared to a standard 2 wheel handtruck.

SUPERIOR ERGONOMIC MATERIALS HANDLING

The patented omni wheel base provides highly intuitive movement capability and load stability.

UNBEATABLE TOTAL COST-OF-OWNERSHIP

Get a rapid return on investment with increased driver retention, productivity and reduced injuries.

Rotatruck™

MOVED BY OMNIA WHEEL

Saving Backs & Bottom Lines

With Rotatruck there is no compromise between efficiency and safety. Rotatruck has the manoeuvrability of a 2 wheeler, the load support of a 4 wheel convertible, and better ease of use, speed and safety than both.

59%
LESS PULL
BACK EFFORT

Lift less. Lever more.

The smaller front omni wheels gives Rotatruck greater leverage than standard 2-wheelers, making it easier to pull back, park and balance loads.

78%
LESS EFFORT
STEPPING UP CURBS

No reversing. No straining.

The fixed orientation of the front omni wheels allows you to step up and lever the load without turning or reversing, saving time, improving efficiency by 63% and reducing effort by 78%.

100%
LESS EFFORT
SUPPORTING THE LOAD

Just push. Don't carry.

Rotatruck's compact, self supporting wheel base removes the need to carry or balance the load.

TAKE OUR ROTATRUCK 2X2 CHALLENGE

Twice as good as your 2 wheel handtruck
in 2 months or your money back!
