

# THE FINEST NAME IN CARGO CONTROL.

› We've been holding it down *since 1968.*

# THE SECURE SOLUTION FOR CARGO CONTROL.

# ABOUT KINEDYNE

**Kinedyne** is a leading designer of innovative cargo control and engineered solutions with operations in the US, Canada, and Mexico. Kinedyne provides superior quality products to the commercial vehicle, military, government, aerospace, and other industries around the world.

LEARN MORE

# PRODUCT DESIGNATION

## CARGO CONTROL

*Quality* you can trust  
Kinedyne has been the leader in cargo control since 1968. Committed to keeping the roads safe, Kinedyne products are thoroughly tested to ensure the highest quality.

## CURTAINSIDE

Fast and easy *access*  
Kin-Sider and Kin-Slider curtainside products are designed for quick and easy access to cargo anywhere on the trailer, accelerating delivery times and creating scheduling flexibility.

## DOUBLE-DECKING

Up to *2x-capacity*  
Kaptive Beam Decking System boosts trailer load capacity by up to twice as much freight. Optimize space with less equipment and fewer drivers.

## MILITARY / GOVERNMENT

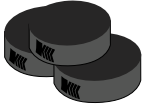

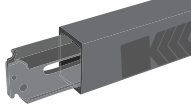

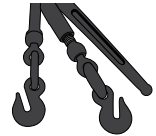

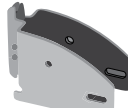

*Securing* freedom worldwide  
Dedicated to serving government, military, and aerospace customers with existing, new, and custom applications for land, air, and sea.

# CARGO CONTROL

Kinedyne helps truckers and fleets by providing solutions that make cargo securement smooth and effortless. Find everything you need to securely tie down your important cargo.

# CURTAINSIDE

**Kinedyne** curtainside products accelerate delivery times, provide scheduling flexibility, and reduce workplace injury.

## **Kin-Sider**

The Kinedyne Kin-Sider is a traditional curtainside system, giving access to cargo anywhere on the trailer for faster and easier access. Kin-Sider also eliminates the need to tarp during inclement weather minimizing downtime for a faster return on investment.

## **Kin-Slider**

Kinedyne's Kin-Slider is a top and bottom rail curtainside with a quick release handle that is up to 10 times faster than traditional curtainside systems, making it the fastest way to access cargo on the market.

## **Kaptive Strap**

Kaptive Strap by Kinedyne is the most effective way to secure cargo in a curtainside vehicle. Kaptive Strap is a securement system suspended from the trailer ceiling that slides along a top rail to easily move straps into place.

## **Kold-Front**

Kold-Front keeps the cold air in! This side curtain for refrigerated trailers is 40% heavier than traditional curtains and slides on our patented penta roller system making it easy for drivers to open and close, while reducing the risk of temperature loss.

# DOUBLE-DECKING

**Kinedyne** Kaptive Beam double-decking systems can double the capacity of a dry van, making it possible to securely carry up to twice as much freight with less equipment and fewer drivers.

## 24 PALLETS FLOOR LOADED

## 24 PALLETS LOADED WITH KAPTIVE BEAM

### Maximize Trailer Space

Carry larger loads safely to their destinations.

### Reduce Damage Claims

Decreased damage claims means better profitability.

### Permanently Installed

Easily store in ceiling when not in use.

A smiling man in a plaid shirt and work vest stands in a workshop. The background is a blurred industrial setting with various tools and equipment. The image is overlaid with a semi-transparent dark grey layer on the left side, where the text is placed. An orange triangle is visible in the top right corner of the page.

## WHY KINEDYNE

Since 1968, Kinedyne has been committed to innovating products that ensure the safe and secure transportation of goods that were designed specifically to optimize efficiencies, allowing fleets and drivers to deliver more with less.

Committed to responsive design and quality manufacturing, Kinedyne continues to keep roads safe, and has become a trusted partner for private fleets, trucking companies, OEMs, retailers, and owners/operators, as well as military, government, and aerospace entities, along with a network of distributors and dealers across the globe.

# PROVEN SUCCESS

## Robust Supply Chain

Kinedyne's flexibility in managing manufacturing and shipping configurations makes our supply chain the strongest and most adaptable in the market.

## Marketing Support

Kinedyne provides unparalleled marketing support, including access to logos and product images, co-branded email campaigns and videos, custom co-op programs, social media content, and more.

## Driving Business to You

Kinedyne is committed to driving business through our distributor network and prospecting for new business on your behalf with joint fleets calls and lead gen tools.

## Education and Training

From on-boarding new employees to preparing drivers and fleets for the International Road Check, Kinedyne provides up-to-date educational training videos, PDFs, and in-person sessions for all your needs.
