

The Difference is Us

## INDUSTRY EXPERTISE: WAREHOUSE & DISTRIBUTION

Fulfillment and supply chain operations are facing more pressure than ever. For environments ranging from manufacturing warehouses to distribution centers and store backrooms, our Warehouse & Distribution solutions provide real-time visibility into all assets, staff and workflows - supporting a compliant, efficient and profitable supply chain.

At TRG, we're committed to "Making Technology Simple" - specifically in enterprise mobility, data capture and printing applications. How do we do this? By offering the industry's most comprehensive suite of lifecycle management services that can optimize any warehouse or distribution environment.

Don't get bogged down in the day-to-day. Partner with TRG to leverage our expertise and efficiencies, reduce costs and risks and free-up internal resources to focus on more strategic initiatives.

## THE BENEFITS

Whether you're upgrading your wireless infrastructure, connecting your staff or tracking your assets or costs - we'll help increase productivity by connecting staff with technology to optimize resource utilization, reduce errors and improve the handling of goods received, stored and shipped.

### OPERATIONAL

- Eliminate errors and bottlenecks associated with manual data entry and picking/put away tasks
- Track all materials with pinpoint, end-to-end accuracy
- Simplify materials management and improve throughput and space utilization

### FINANCIAL

- Reduce costs associated with paperwork, inefficient workflows and lost equipment
- Decrease long-term capital spend & recurring repair costs associated with non-rugged devices
- Reduce inventory carrying costs through improved visibility and accuracy

### STRATEGIC

- Provide deeper, actionable data on the location and condition of assets, operations and processes
- Improve utilization of costly assets and warehouse space
- Decrease lag between shipment arrival and system availability

### COMPLIANCE

- Access real-time information, analytics & documentation
- Boost efficiency and data granularity in tracking goods and their chains of custody

# ABOUT US

TRG is a global managed solutions provider focused on enterprise mobility, point of sale and payments. With facilities across the United States, Canada and Europe, we provide the most comprehensive suite of lifecycle management services – from warehouse to boardroom and deployment to retirement.

# THE TRG DIFFERENCE

BREADTH

We maintain the most comprehensive suite of services in the industry, offering a one-stop-shop solution agnostic across vendor, lifecycle stage and service.

FLEXIBILITY

As a family-owned business, we're nimble and maintain complete control over our company – the flexibility we provide, the flexibility we offer and our reinvestment in the business.

GLOBAL REACH

We own facilities across North America and Europe, maintaining the largest footprint in the market and offering one-stop-shop, global services.

SCALE

With more than 5,000 customers and 10M devices under management, we have the systems to scale our solutions and customer support in ways that our competitors cannot.

CULTURE

We're a customer-driven organization comprised of dedicated, creative and knowledgeable individuals.
