Mobile Dimensioning

Collect small to large box dimensions in just seconds.

Optimize Space

Increase Workflow Efficiencies

Reduce Costs

Capture accurate box dimensions anywhere with xDIM. The portable, point and click dimensioning software runs on the MobileDemand rugged xTablet you use every day.

xScale

Easily capture weight right at the box.

The Bluetooth-enabled, lightweight, battery-operated xScale 200 complements the xDIM Mobile Dimensioning data collection process.

Custom Innovations

Not finding the right technology for the job?

Our forward-thinking strategy is to design and deliver solutions that fix customer challenges.

About MobileDemand

Since 2003, MobileDemand has been a technology leader in rugged tablets and mobile computing solutions, committed to bringing more functionality and capabilities to the mobile workforce. Specializing in the design of integrated productivity tools for barcode scanning, point of sale, magnetic stripe reading, PIN pad entry, 3D and thermal imaging, box dimension measurement, and mounting hardware for a myriad of on-the-go applications, the company is driving the future of mobile productivity.

4DMobile, a companion company of MobileDemand, develops game-changing software such as xDIM Mobile Dimensioning with a mission to elevate workforce productivity and optimize space with innovative and convenient computer vision and mobile applications.
