

ACTintelligent

Fleet Optimization Remote Monitoring

Proactive Support from ACT's Network Operations Center (NOC)

- Technical Engineering Staff co-located in California and Florida
- Remotely monitor the charger and battery condition
- Dispatches local service if issue can't be resolved remotely

Proactive support from your local Servicing Partner

- Weekly Battery Alerts are sent to Dealer and Customer
- Local servicing dealer will be notified if battery condition needs attention

ACTIntelligent Benefits	Battview	Battview & Quantum
Remote firmware & software updates	x	x
Maximum data security & user authentication	x	x
Automated data uploads with real-time analytics & reports with 24/7 access	x	x
Access real-time analytics anytime from your desktop, mobile or tablet	x	x
Remote monitoring of battery utilization & performance	x	x
Automated alerts and service schedules	x	x
Data analytics simplified on Dashboard to help optimize the efficiency of fleet	x	x
Communication & intelligence between Battview and Quantum		x
Real-time control with remote commands to the ACT Quantum charger		x
Remotely manage & program optimal charge and equalization cycles		x
Optimize charger energy usage with Energy Management including lockout and power limiting features		x
Customize reports with advanced analytics to gain deeper insights into you operations		x

Integrated Solution for Smart Battery Charging and Monitoring

**Quantum
Efficient Fleet Charging for Smart Operations**

Maximize fleet performance with advanced chargers designed for efficiency. Manage & send commands remotely to start, stop or optimize charge cycles. Industry's highest charge efficiency (> 94% peak).

**Battview
Smart Industrial Battery Monitoring**

Remotely analyze fleet performance through advanced data analytics, battery utilization and battery performance data.
