

ENCLOSED CABS & ACCESSORIES

MAXIMIZE PRODUCTIVITY

BY KEEPING YOUR OPERATORS SAFE AND COMFORTABLE

Blending functionality and style, our cabs are painstakingly engineered to provide maximum visibility.

Cab components and controls are all ergonomically placed to reduce fatigue, and seamlessly integrated to complement the original design and colours of each truck.

ACCESSORIES

WIPERS

Available in single-arm, 1-speed model or heavy-duty 2-speed model, with or without a pantograph arm.

DEFROSTER FAN

Mounted at the top corner of the windshield, takes up little space and has ample power to keep windows frost and mist-free.

CAB HEATER

High-output, 20,000 BTU hot-water heater with 2-speed fan, opening vent doors and adjustable diffuser nozzle.

FACTORY ACCESSORIES

Cabs supplied with provisions to allow for transfer of most standard factory accessories.

INSULATE EFFORTLESSLY

**AGAINST RAIN, SNOW, OR SUB-ZERO
TEMPERATURES**

DURABILITY

Harris cabs are built to last; period. Assembled using only superior quality materials and components, providing reliable performance for even the toughest of jobs.

SAFETY

Standard skylights ensure upward visibility. Lockable, anti-burst door handles prevent unwanted opening. Side-sliding windows provide excellent views. All designed to protect against hazards, day or night.

CONVENIENCE

Ample headroom, wide doors, storage pockets, coat hooks, and easy access to the engine hood for servicing are all standard features derived from continuous operator and technician feedback.

STOP THE RAIN FROM STOPPING YOUR LIFT TRUCK

Raingard[®]

Like an umbrella, the Raingard[®] is a low-cost alternative to keep rain out.

Sturdy steel panels are assembled and clamped to a truck's overhead guard, mounting easily without special tools.

Vinyl side curtains are available to provide an all-season enclosure at minimum cost. It's an economical way to keep your forklift working despite the weather.
