## THE **PERFECT PICK**® FROM OPEX WAREHOUSE AUTOMATIONS

The Perfect Pick is a self-contained, standalone fulfillment aisle run by automated iBOT technology, capable of delivering up to 80lbs directly to a workstation. These units are designed to **scale with your business**, making it easy to **increase storage capacity** without tacked-on labor costs. Additionally, the Perfect Pick operates without conveyor or transfer systems, saving space in your warehouse.

# SIM AUTONOMOUS MOBILE ROBOT FROM MIR

The V550 is an industry-leading Autonomous Mobile Robot (AMR) solution that offers a number of advantages. One key advantage is ease of deployment. The V550 can be **quickly and easily installed** without the need for costly and time-consuming infrastructure changes or engineering. Additionally, the V550 features the best user interface in the industry, with an intuitive tablet and laptop interface that makes it easy to use. The V550 is also **CSI-certified**, meaning that it meets the highest standards for accuracy and reliability. This makes the V550 an ideal choice for customers looking for a reliable and easy-to-use AMR system.

## PALLETIZING SOLUTIONS FROM ROBOTIQ/UNIVERSAL ROBOTS

The Robotiq Palletizing Solution is where simplicity meets flexibility. This innovative technology works in conjunction with the UR10e from Universal Robots to **provide the most efficient palletizing possible** for your warehouse environment. This automated palletizer is able to stack boxes weighing up to 17.5lbs as high as 87". With flexibility, mobility, and an easy 3-step setup, the Robotiq Palletizing Solution's small footprint makes it **easy to integrate** into your current warehouse floor plan and is even compatible with 3rd-party safety devices.
