

The Aegis, in Greek mythology, was the shield of protection carried by Zeus and Athena. Today, partnering with Aegis Sortation means you are protected from downtime and the inefficiencies that kill profitability.

Aegis installations are quick and easy, ensuring compliance to tight commissioning schedules.

All components are pretested and preassembled.

FEATURE	SMALL	PARCEL
Width	35 inches	47 inches
Motor	7.5 HP (Typical)	20 HP (typical)
Angle	30 degrees	20 degrees
Intermediate Section	7 foot length (Standard)	8 foot length (Standard)

The unique design of our upper rail offers a dedicated raceway for controls and network cabling. This feature significantly reduces installation time and cost.

THE AEGIS SORTATION DIFFERENCE

Patented technology within Aegis Sortation products enables quicker sorting with speeds exceeding 600 feet per minute. The easy-to-install system offers the industry's lowest meantime to repair and the highest predictive availability.

KEY TECHNOLOGY

Leveraging both proven and emerging technologies in the development of visionary solutions for state-of-the-art systems.

- > Bespoke Technology
- > Smart Shoe capability
- > Precision extruded aluminum design
- > Two integrated raceways per upper rail
- > Vertigate™ diverts
- > Delivered in pre-assembled, pre-tested sections

OUR APPROACH

Our products are specifically designed for industry. Always. No exceptions. We implement the following concepts throughout the entire product life-cycle:

- > Design excellence
- > Industry leading Mean Time Between Failure
- > Lowest Mean Time To Repair
- > Cost effectient
